

ASSOCIATE MEMBERS

Any organization or entity that is a supplier of goods or services to the aluminum industry or distributor/jobber, has a direct and substantial interest in the industry and is not otherwise eligible to be a Producer Member, may be eligible for Associate Membership.

BENEFITS AND SERVICES

- Opportunity to be represented on Aluminum Association Committees and Subcommittees, subject to participation policies established by the Board of Directors and guidelines of the relevant Committees.
- Associate Members also qualify for member company rates for fees associated with Aluminum Association-sponsored conferences, seminars, etc.
- Associate Membership offers the opportunity to participate in and/or sponsor partnership receptions held at Aluminum Association General Meetings.
- An Associate Membership offers the member company the opportunity to participate in the "opt-in" funding of special programs or projects of the Association by invitation of the opt-in participants.
- Statistical reports are available at 50% off list price.
- Associate Members will be included in the source directory section of the Aluminum Association's Internet web site, www.aluminum.org. This listing includes company information, contact points, and products and services.
- Associate Membership also provides sponsorship and advertising opportunities for the Aluminum Association's web site and magazine at member rates.
- All Aluminum Association publications are available to Associate Members at the discounted member rate.
- Associate Membership also includes placement on the Aluminum Association's master mailing list for receipt of newsletters, notices of meetings and events, and other general information.
- Memberships are subject to Board approval; upon approval, each Associate Member will receive an Aluminum Association Associate Member plaque suitable for display.
