

Estimated U.S. and Canadian Sheet and Plate and Foil Reroll

Product Capacity

(millions of pounds)

S-2 - 2009

Issued: March 26, 2009

<u>Total Capacity</u>	<u>Annual Rate of Capacity</u>	<u>Continuous Cast Portion of Total Capacity</u>
As of January 1, 2009	11,955	2,581
As of January 1, 2010	12,163	2,656
As of January 1, 2011	12,271	2,695

Sample

Note: Reported capacity represents that maximum volume of sheet and plate and foil reroll that can be produced on an annual basis as of January 1. Figures include current and anticipated changes over the three year period.

Capacity is defined as the maximum volume of sheet, plate and foil reroll that could be produced based on production mix until a bottleneck is reached.
